## SUMMARY

Entry-level software developer with hands-on experience building responsive web applications through coursework and real-world projects. Strong problem-solver skilled at breaking down requirements, debugging code, and making thoughtful technical decisions. Experienced with HTML, CSS, JavaScript, and React, and comfortable collaborating in team-based environments. Seeking a junior front-end or full-stack role where I can continue learning and contribute to user-focused solutions.

## LANGUAGES | FRAMEWORKS | TOOLS

HTML | CSS | JavaScript | React | Git | Github

## EXPERIENCE

### RADII — LaunchCode Capstone Project

- Web application for discovering, organizing, and interacting with curated content
- Independently designed and built a responsive React application with a focus on usability and clean UI across devices
- Integrated Google API to fetch and render dynamic, location-based data within the application
- Architected modular, reusable components (including modal components) to improve maintainability and scalability
- Managed application state and data flow to ensure consistent UI updates when API data changed
- Made technical decisions around component structure and data handling to support future feature expansion
- Full Project Tech Stack: HTML, CSS, JavaScript, React, Google API

### Service Menu Curator — Salon Business (Contract/Seasonal)

Month 2021 - Present

- Designed and reorganized service menus to improve clarity and visual hierarchy, increasing client engagement by ~25%
- Consulted with business owners to translate goals and client feedback into actionable updates
- Analyzed service data and customer feedback to prioritize improvements and optimize offerings
- Researched industry trends to recommend annual updates, keeping services competitive and relevant

### Lead Nail Technician — L'amitié

April 2017 - June 2019

- Led client consultations to gather requirements and deliver customized services, maintaining an 80–90% repeat client rate
- Managed scheduling, workflow, and service quality in a fast-paced environment
- Used seasonal trends and client feedback to refine offerings and support long-term retention
- Trained and mentored junior technicians, providing clear guidance to improve team consistency

## EDUCATION

**LaunchCode**, Software Development, 2026

**Bucks County Community College**, Health Science
